Contest at Walnutta.

The inclement weather prevented many from attending the contest at Walnutta, Tuesday night, but those who ventured out were more than paid for it. All the young ladies did emarkably well, and many compli ments have been showered upon them The first prize, a gold medal, wa awarded to Miss Elene Hiatt, and the second, a subscription to the America llome Magazine, was given to Miss Fannie Spratt. At the conclusion o inc contest, an old-fashioned quilting bee was given, in which Misses Jenni Wallace and Lucy Ramsey, took the principal part.

The three noble ladies walked all afternoon in drenching rain, going from honse to nouse collecting the provisions. At eight o'clock that night a row of ta bles in the hall at the Court House were ladened with many kind of good things to tempt the palates of the young warriors. We have never seen more bountiful public supper spread than was there for the boys. The tables were waited upon by Misses Ber tha Burnside, Nellie Marrs, Mary Miller, May Hughes, Elisa Lusk, Altie Marksbury, Bessie Bush, Alberta Anderson. Dove Harris, Lula Anderson and many others of Lancaster's socie y folks. After ample justice had been done the supper, the boys were addressed by Capt. Herndon, Hon. R. H. Tomlinson, G. B. Swinebroad, Rev. Henry Faulconer, W. L. Williams, P. W. Spencer, Lewis Walker and others. The speeches were all good and full of ing all-wool and beautiful in design timely advice to the boys, who apand finish. The snits at \$13.50 and \$15

The Surgeons' Board began the work of examining volunteers at Lexington Tuesday. Of 79 men in Company G, of Covington, 19 failed to pass, and 24 men will have to be recruited to fill the company. The work is now progressing swiftly.

The men at Lexington are begin ning to complain of their quarters They say they would prefer the open field to the crowded buildings. Many of them are anxious to go to the front and the news telling of the change in the plans for the volunteer army to le give the boys a good send-off and sent direct to the coast centers is p easant news to them.

The Navy Department was notified by the naval attache at Londen, that the Spanish fleet which left the Cape Verde Islands April 29, and for which Admiral Sampson is waiting near Porto Rico, has arrived at Cadiz. The Navy Department evidently accepts the report as true, and has decided to begin at once the reduction of San Juan and Havana. THE Kentucky troops at Lexington were stirred up considerably Tuesday when they were told they would be ordered south as fast as they could be equipped. Reports from Lexington say every one of the recruits so far questioned is wild with joy at the seeming opportunity to move forward. They are eager for the quick arrival of the equipment ordered by Captain Ball thee from Washington and which it is thought, will be here by the last of next week at the furthest. The soldiers are being put through a great deal of work. Instead of the light drilling received last week in small doses, they are now required to drill about six hours a day. The men are in good health and spirits, but are greatly perplexed at the snail's gait in which they are equ:pped.

Capt. Ballance, the army officer in charge of the recruiting in Kentucky was interviewed regarding the time into the field. He said: "We cannot leave here until they are equipped, and I am afraid that will be a long time. It is doubtful if the wool has been sheared for the Kentuckians' uniforms and you know we cannot go into a eampaign until they are properly uniformed. We are getting along very slowly, for all this work is new, and we have no precedents to go by. The same rules which were in force when the volunteers of the civil war were being mustered into service do not apply now, and it is a much slower busi ness than it was in those days."

IT is hoped that the poor condition in which the state troops were found will have the effect of opening the eyes of our people and causing better provision to be made for the guard. It is impossible for an Adjutant General or Governor to keep the troops on fighting footing when the legislature fails and refuses to set aside money for the purpose. A great many men have served as legislators who did not even know of the existence of a state guar l. The election of such men is the direct eanse of our troops being so far behind other states when Unele Sam called for help. The adjutant generals make reports after reports calling attention to what is needed by the slept through their reading, the reyears, and knows of the way the or- as early as possible. ganization has been neglected. No young men in the state would enlist and we would soon have a guard equal to that of the other states.

It has been clearly demonstrated that the Spanish gunners are a flat failure. While it was to be expected that the best ships of Dewey's squadron would receive little or no injury The remaining six Major Generals at the hands of the Spanish fleet, it i difficult to understand how his lighter vessels got away from the large Spanish eruisers without something to show that there had been a fight. There was the little l'etrel. She registers but 892 tons, sits high in the water, is without protection for her gunners, and little for her vitals. There was the revenue cutter McCulloch, which is in no sense a warship. There was the Boston, far below two of the Spanish ships in registered tonnage and horse power. At the beginning of the contest, the Spaniards had two ships that should have made it unpleasant for any vessel in the American fleet save the Olympir, queen of the China Sea, the seasoned but powerful Baltimore and the sturdy Raleigh. Yet there is no evidence that any shot from the best of the Spanish guns on again been shelled, this time by the the best of the Spanish ships was effective against the little fellows that was also destroyed. At present Unele Sam has bar.ly more than a sufficient number of modern rifles for the regular army. The militia of the States are armed with old-fashioned Springfields and similar out-of-date weapons. When it is sa'd that a Springfi dl rifle shoots twentyfive bullets a minute with a range of actually flourishing on dry land. 4,000 yards, against forty shots a minute at 6,000 yards for the new regulation Krag-Jorgenson, a very imperfect notion is given of the difference in e'ectiveness between the twe weapons. The difference lies mainly in the increased "danger space" where the of the projectile fired by the Krag-Jorenson is so great that its course thro' he air is nearly horizontal, so that i would kill a man who stood anywhere between the muzzle of the r.fle and a listance of three miles. A Springfield bullet, on the other hand, might kill at two miles, but, if properly aimed for such a range, would go over the head of a man standing a mile away.

Manila was even more complete and will work wonders. glorious than first reports made it. Not only was the Spanish fleet comp'etely destroyed and the forts eaptured, leaving Dawey master of Manila Bay, but this result was accomplished without the loss of a single life on the American ships and with can ship was disabled or even serious-Manila when his dispatch boat, bringing the reports printed today, left Manila on May 4, but he is in a position to take it whenever he gets ready. It will be remembered that the Spanish official reports last Sunday of the battle of Manila aroused false hopes of withdrawal of the American ships after the first two hours' fighting as an indication that the Americans had been badly damaged. It now appears that Commodore Dewey only withdrew for breakfast, after which he finished the job in short order.

Many old soldiers now feel the ef fects of the hard service they endured during the war. Mr. Geo. S Anderson, of Roseville, York county, Penn., who saw the hardest kind of service at the front, is now frequently troubled with rheumatism. "I had a severe attack lately," he says, "and procured a bottle of Chambelain's Pain Balm. It did so much good that I would like to know what you would charge me for a dozen bottles." Mr. Anderson wanted it both for his own use and to supply it to his friends and Leighbors, as every family should have a bottle of it in their home, not only for rheumatism, but lame back, sprains, swellings, cuts, bruises and burns, for which it is unequalled. Monday the market went still further skyward, July wheat advancing fifteen cents. It opened at \$1.09 and closed at \$1:20 1-4. May wheat opened at \$1.73 and closed at \$1.75.

It is too carly to forctell the effect as the present management will make of the war between the United States no further efforts to hold a meeting at and Spain on the agricultural and live stock industry. Assistant Secretary of Agriculture Bringham can see no material good that can result to the farmer. A prolonged war would doubtless raise the price of breadstuffs and pro-visions, which indirectly would be to Christ as robust and brawney-ranraise the price of breadstuffs and prothe advantage of the producer, but in One Minute is not long, yet relief is that event it is probable that the farmer would be required to pay higher prices for the articles he needs. It may be pointed out that la grippe and all throat and lung most of our export cattle and meat trade goes under the British fiag, and hence would be expected to suffer no great interruption. The American Ilners which have been chartered by the United States Government have a earrying capacity for meats equal to about ,000 cattle per week, but room can probably be found in bottoms flying other flags to take our export stuff. re the Tobacco Men Over the Trust Octo-

Farmers are urged by Carrol county cobaceo growers to arrange a meeting at the Court House next ccu .ty cou t lay here to consider the grave situation arising from the proposed gigantie trust of tobacco manufacturers

The case in this, say there gentlemen: The American Tobacco Co., a \$25,000,000 concern, is trying to absorb all other manufactories of tobacco, by cetting them into a new and larger trust, to be known as the Continental Tobacco Co. and capitalized at fifty millions.

All the manufactories that amoun to anything have signed a willingness to go into it, save the Liggett & Myers Co., of St. Louis, and a few other concerns. If that company should enter the combine no doubt all others would. The Liggett & Myers Co- is being offer ed every inducement: they have refused ten million dollars cash for their plant, and in addition will stay out of

of the monopoly. If this company joins the trust there will no longer be any competition. The terrible monopoly can then say we will give just so much for your to bacco and no more: the farmer will be at its mercy and may have to starve

Furthermore, the monster can say to the consumer everywhere: You pay our price for plug tobacco, smoking tobacco, etc, or do with out-and the price will be knocked a-kelter.

It will thus be seen that it is a mon opoly that can exert its grinding pow er in two directions, with most disas trous consequences

At the meeting proposed farmer will, doubtless, pass resolutions warmly endorsing the independent companies for the stand taken, and urging them to stand firm.

Resolution calling for legislation to protect farmers and consummers from uch a monopoly will also be passed. The farmere are urged to act next County Court Day and act decisively The Carrol county people are aroused

and are pushing the fight. Excursion Lexington to see ou roops in Camp. Queen & Crescent Route exentsion rates next Sunday from all points between Somerset and Crescent Springs. This discourse of Dr. Talmage is rev Intionary for good in families and harches, and nations, and especially appropriate for this time. Text, Acts "These that have turned he world upside down are come hither There is a wild, bellowing mob

The religion of the lible will make a revolution in the family. Those things that are wrong in the family circle will be overthrown by it, while justice and harmony will take the place. The husband will be the head of the household only when he is fit to be. I know a man who spends all the money he makes in drink, as well as all the money that his wife makes; and sometimes sells the children's clothe Do you tell me that he is fit to be the head of that household? If the wife have more nobility, more courage, more of all that is right, she shall have the supremacy. You say that the Bible says that the wife is to be subject to the husband. I know it. But that is a husband, not a musculine There is no human or diearieature. vine law that makes a woman subordi-Christianity comes into a domestic circle, it will give the dominancy to that one who is the most worthy of it. door, mirth and laughter will not go laugh just as loud; and George jump higher than he ever did before. It will steal from the little ones neither hall nor bate, nor hoop nor kite. It will establish a family Angels will hover over it. Ladders of light will reach down to it. The glory of Heaven will stream upon it. The books of remembrance will record it; and tides of everlasting blessedness will pour from it. Not such a family altar as you may have seen, where the prayer is long, and a altar long chapter is read, with tedlous explanation, and the exercise keeps on until the children's knees are sore, and their backs ache, and their patience is lost, and for the seventh time they have counted all the rungs in the chair; but I mean a family altar such as may have been seen in your father's house. You may have wan-dered far off in the paths of sin and darkness; but you have never forgotten that family altar where father and nother knelt, importuning God for man never gets over. There will be a hearty, joyful family altar in every dogo far to find Hannah rearing her Samuel for the temple, or a grandmother Lois instructing her Timothy in the knowledge of Christ, or a Mary, and Martha, and Lazarus gathered in fraternal and sisterly affection, or a table at which Jesus sits, as at that of Zaccheus, or a home in which Jesus dwells, as in the house of Simon the The religion of Jesus Christ coming into the domestic circle, will overthrow all jealousies, all janglings;

and peace, and order, and holiness will Again: Christlanity will produce revolution in commercial circles. Find me 50 merchants, and you find that they have 50 standards of what is right wrong. You say to some one at a merchant. "Is he honest?" about a merchant. "Oh! yes," the man says, "he is honest, but he grinds the faces of his clerks. He is honest, but he exaggerhonest, but he loans money on bo and mortgage, with the understanding that the mortgage can lie quiet for ten years, but as soon as he gets the mortgage he records it and begins a foreclosure suit, and the sheriff's writ comes down, and the lay of sale arrives, and away goes the homestead, and the creditor day buys it in at half price." Honest? when he loaned the money he knew that he would get the homestead a half price. Honest? but he goes to

his life, and tells the doctor that he is well, when he knows that for ten years e has had but one ling. Honest? though he sells property by the map, forgetting to tell the purchaser that the ground is all under water; but it is generous in him to do that, for he throws the water 'nto the bargain.

Ald my friends, there is but one standard of the everlasting right and of the everlasting wrong, and that is the Bible, and when that principle shall get in its pry under our commer-in. cial houses, I believe that one-half of them will go over. The rule will begin at one end of the street and it will erash! erash! erash! all the way down to the docks. "What is the matter! llas there been a fall in gold?" "Has there been a new tariff?"
"Has there been a failure in?" "No." "Has there been an

You build a house and you jut into

it a rotten beam. A mechanic standing by says: "It will never do to put that beam in; it will ruin your whole building." But you put it in. The house is completed. Soon it begins to rock. You call in the mechanic and "What is the matter with this ask: What is the matter with this Everything seems to be giving wall? ont." Says the mechanie: "You put a rotten beam into that structure, and the whole thing has got to come Here is an estate that seems down, to be all right now. It has been bullding a great many years. He will come, some day, luto your counting room. and He will demand, "Where did that note of hand come from? How do you account for this security? Where dld you get that mortgage from? What does this mean." If it is all right God will say: "Well done, good and faithservant. Be prospered in this world. Be happy in the world to come." If it is all wrong lie will say: world. "Depart, ye cursed. Be miserable for your iniquities in this life; and then go down and spend your eternity with thieves, and horse jockeys and pick-

pockets. You have an old photograph of the signs on your street. Why have those signs nearly all changed within the last 20 years? Does the passing away of a generation account farit? Oh, no. Does the fact that there are hundreds of honest men who go down every year account for it? Oh no This is the secret: The Lord God has been walking through the commercial streets of our great cities, and He has been adjusting things according to the priuciples of eternal rectitude.

The time will come when, through the revolutionary power of this Gos-pel, a falsehood, instead of being called exaggeration, equivocation and evaings, that now sometimes go under the ad of percentages and commis and bonuses, will be put into the cata logue of state prison offenses. Society will be turned inside out and unsid down, and ransacked of God's until business dishonesties shall come to an end and all double dealing; and God will overturn, and overturn, and overturn; and commercial men in all eities will throw up their hands, cry ing out, "These that have turned the

world upside down are come hither." The religion of Jesus Christ will produce a revolution in our churches. The noncommittal, do-nothing policy of the church of God will give way to a spirit of bravest conquest. this day seems to me to be salted down just so as to keep. It seems as if the church were chiefly anxious to take care of itself; and if we hear of want. and squalor, and heathenism outside. we say, "What a pity!" and we put our hands in our pockets, and around for a two-cent piece, and with a great flourish we put it upon the plate, and are amazed that the world is not converted in slx weeks. your soul. That is a memory that a pose there were n great war; and there were 300,000 soldiers, but of all thos 300.000 soldiers, excepting 10 men, were eircle. You will not have to in their tents, or seouring their muso find llannah rearing her Sam-kets. or cooking rations. You would say, "Of course defeat must come in that case." It is worse than that in the church. Millions of the profes soldiers of Jesus Christ are eccking rations, or asleep in their tents, while only one man here and there goes out to do battle for the Lord. "But," says some one, "we are estab-

lishing a great many missi ns. and think they will save the masses." No, think they will save the masses. So, they will not do it. They are doing a magnificent work, but every mission chapel is a confession of the disease and weakness of the church. It is making a dividing line tween the classes. It is saying to the rich and to the well conditioned: "If you can pay your pew rents come to the main audience room." It is sav-ing to the poor man: "Your coat is too bad and your shoes are not good enough. If you want to get to lleaven you will have to go by the way of the mission chapel." The mission chapel has become the kitchen, where the church does its sloppy work. There are hundreds and thousands of churches in this country-gorgeously built and supported—that, even on new kind of sleeve button has ma bright and sunshiny days, are not half full of worshipers, and yet they are bullding mission charels, because by some expressed or implied regulation, the great masses of the people are Lept. out of the main audience room.

Now I say that any place of worship which is appropriate for one class is

appropriate for all classes. Let the rich and the poor meet together, the Lord the Maker of themall. Mind you that I say that mission chapels are a necessity, the way churches are now conducted, but may God speed the time when they shall cease to be a necessity. God will rise up and br ak down the gates of the church that have kept back the masses; and woe be to those who stand in the way! They will be trampled under foot by the vast pop-

thurch in Boston in which it is said, there were a great many plain people The next week the trustees of that durch came out in the paper and said it was not so at all; "They were elegant people and highly conditioned occude that went there." anghed outright; and when I laugh mentality of the churches." ambition is not to preach to you so much. It seems to me that you must be faring sumptuously every day, and the marks of comforts are all about you. You do not need the Gospel half splendid equipages on the Sabbath lay, I would have a church up to whose gates there should come a long procession of the suffering and the stricken and the dying begging for admittance. You do not need the Gospel as much as they. You have good as much as they. You have good things in this life. Whatever may be your future destiny, you have had a pleasant time here. But these dying populations of which I speak, by rea-But these dying son of their want and suffering, what-ever may be their future destiny, are in perdition now; and if there be any comfort in Christ's Gospel, for God's

sake give it to them! Revolution! The pride of the church nust come down. The exclusiveness of the church must come down! The financial boastings of the church must come down! If monetary siccess were the chief idea in the church, then I say that the present mode of conducting finances is the best. If it is to see how many dollars you can gain, then the present mode is the best. But if it is the saving of sonls from sin and death, and bringing the mighty populations of our cities to the knowledge of God. then I cry, Revolution! It is coming fast. I feel it in the air. I hear the rumbling of an earthquake that shall shake down, in one terrible erash, the

rrogance of our modern Christianity The sea is covered with wrecks, and multitudes are drowning. We come out with the church life-boat, and the people begin to elamber in, and shout: "Stop! Stop! You must think t costs nothing to keep a life-boat Those seats at the erew are one dollar apiece, those in the middle fifty cents, and those seats in the stern two shill lings. Please to pay up, or else thounder on a little longer till the misslon-boat, whose work it is to save you penulless wretches, shall come along and pick you up. We say class slaners in this boat."

The talk is, whether Protestant churches or Roman Catholic churches are coming out ahead. I tell you Protestants, this trnth plainly: That until your churches are as free as the Roman Catholic cathedrals they wil beat you. In their cathedral the mil lionaire and the beggar kneel side b And until that time comes in ou churches we can not expect the favo of God, or permanent spiritual properity.

Revolution! It may be that, befor the church learns its duty to the masses, God will scourge it, and comwith the whip of ounipotent indign tion and drive out the money changer It may be that there is to be a greaday of upsetting before that time sha come. If it must come, O Lord Go let it come now!

In that future day of the reconstruced Church of Christ, the church-buil buildings. Instead of the light of the sun strained through painted glauntil an intelligent anthority look green, and blue, and yellow, and co per-colored, we will have no sure thing The pure atmosphere of Heaven will sweep out the fetid atmosphere that ha been kept in many of our boxed up from Sun lay to Sunday. Th day of which I speak will be a great revivals. There will be such time as there was in the parish Shotts, where 500 souls were born Ged in one day; such times as were see in this country when Elwards ga add Whitefield thundered, and Ed ward Payson prayed; such times some of you remember in 1857, who heard in theater, in warehouse, an blacksmith shop, and factory, and e gine house; and the auctioneer's cry 'a half, and a half, and a half." drowned out by the adjoining pray meeting, in which the people cried or Men and brethren, what shall we do
